CEO LONG DISTANCE COACHING AND CORPORATE SUCCESS RETAINER PROGRAM

Building success through best practices knowledge and implemented action steps

The CEO Long Distance Coaching and Corporate Success Retainer Program is designed to give CEOs and their management teams one-on-one strategic advice and executive mentoring on corporate strategy, marketing, strategic planning, sales process, sales management, operations, exit strategies, and corporate mergers. The goal of our program is to provide proactive support interactively to the CEO to help them maximize their corporate performance and reach their personal goals.

Through our program, we hold scheduled weekly 1 1/2 hour telephone advisement and coaching sessions with the CEO and their team on marketing tactics, corporate strategy and

sales process and methodology. Each week, we develop specific strategic steps needed to be completed between sessions to help the management team increase their corporate success.

Additionally, with this program, the CEO has unlimited access to the Value Forward Group by email for one-on-one coaching between telephone conferences for advice and guidance on any business need or subject.

Depending on the goals of the client, on-site coaching, consulting and team training can be packaged with this program as needed.

“We measure our performance according to the impact that we have in driving your business forward.”
